Midwest Metal Products, Inc.

- A business where employees can become partners – where else can you end up as an owner ?
- The only foundry we have found that has all electricity, including melting, provided by solar.
- Active in SFSA across all areas – working on the future.
- Great Midwest location on the Mississippi River.
- Carbon, Low Alloy, and Stainless steels, Ductile, Gray, Abrasion (Chrome and Nickel) irons.
- Willing to fail, “the worst that can happen is it doesn’t work”.
