

Advancing the Steel Casting Industry

- Our Society
 - Trade association serving the steel casting industry
 - Steel technology development – largest steel research consortium
 - Industry and customer training
 - Specification development
- Our Members
 - Steel casting producers committed to manufacturing superior products and advancing casting practices
 - Culture of collaboration and innovation

Mission: Make Friends, Solve Problems

Our Team Mission: Make Friends, Solve Problems

- Make Friends
 - Discover and connect with leaders across all realms of the casting industry to foster robust friendships and cultivate productive working partnerships. Collaboration is at the heart of everything we do.
- Solve Problems
 - Tackle complex challenges by conducting in-depth research and utilizing validated data to generate practical solutions. We are always learning to better serve our members.

SFSA is seeking a Research Engineer. The position is well suited for a technically-minded, self-motivated individual seeking an opportunity to become a world-class expert in specialty steel design and manufacturing innovation.

Bachelors in Engineering or related science required.
